OBJECTIVE

I am a student majoring in Information Security at the College of Cryptographic Engineering, with the knowledge and skills during my study and training at school, I hope to achieve the set goals:

- Become an employee or intern of a web field company.
- Accumulate experience while working, develop professionally and apply as a full-time employee.
- Contributing his knowledge and experience to the development of the company.

I have the orientation to become a fullstack developer, I hope to be able to find a job to study and work.
